

## Monthly progress report for the month of December 2015

In the month of December we gave more focus on the study. As our second exam is held from 16<sup>th</sup> to 22<sup>nd</sup> December, all the staff members were busy with exam question preparation. And the students were busy in their study. Especially class two students were not performing satisfactory, from last two months they gave more focus on the extra curriculum activities. This month we gave more focus on them. We motivated and encouraged them to perform their best.

After exam was finished we celebrate Christmas day with great enthusiasm. This year we had little Santa in our school. From the early morning they were eagerly waiting for Santa. When Santa arrived in the middle of the program, their experience was speechless. Santa distributed lots of sweets and gifts to all the students. They sang Christmas carols and danced. Our volunteer Sweta along with all the teachers made face painting. Children had a fun filled day.

On 27<sup>th</sup> December we distributed blue or black color caps for all the students. They were excited to get a nice and warm cap for this winter.

As per schedule we are planning to go for picnic on 2<sup>nd</sup> January, 2016. So we planned for the picnic. We fixed breakfast, snacks and lunch menu. We arranged transportation. We booked the venue and informed all the students and parents about the picnic. We divided the work among staffs and divided the number of students in groups. We finalized the games as well and asked seniors to look after juniors.

This month we focused on the staff progress. Because what we believe is that the progress of student will depend on the progress of staff members. First and foremost thing is to improve the personality of staff members that will reflect on the students. Some of the staff are not friendly with computer so they are provided computer training. Some of the teachers know English but they hesitate to speak in front of visitors. For them we provide a platform to speak English with staff members and students. The more exercise the more effective teaching.

From now onwards, on every Friday we were conducting English spoken class and learn more about Sweden and our exchange program.
